President's Message

We have a great field trip planned for this months meeting John Nally has arranged for what will be a very interesting tour of Brookhaven National Labs. Please note that due to security pre-registration is required; see the announcement in the newsletter for more information. Please note that no meeting will be held at the Westbury Manor this month.

Our chapter is co-sponsoring various continuing engineering education programs at Hofstra University. This year they are offering two courses:

- Professional Engineering Review, Part A Engineering Fundamentals
- Professional Engineering Review, Part B Engineering Mechanical

As a LI ASHRAE member, in the past Hofstra has extended a \$50 credit for these courses. They are in the process of finalizing the details of these courses. If you would like more information on schedules and costs please contact Hofstra directly at (516)463-5993 or email: uccelibarts@hofstra.edu.

On other ASHRAE news, the ASHRAE Society has developed a new strategic plan to increase focus on sustainability. ASHRAE has identified four principal strategic directions that define where ASHRAE will focus its efforts and resources for the next several years. If you would like to learn more, the new strategic plan is available on the ASHRAE website: www.ashrae.org/template/assetdetail/assetid/50843

CHAPTER MONTHLY MEETING

DATE:	Tuesday, April 11, 2006* FIELD TRIP - NO DINNER MEETING
TIME:	See Programs on Page 4 for Details.
LOCATION:	Brookhaven National Laboratory
FEES:	
Members -	No Fee for All Attendees
Guest -	
Student -	

I would like to thank Michael O'Rourke, one of our past presidents, for his continued efforts in trying to get young people involved in our industry. Michael has been a strong supporter of the Suffolk County Community College HVAC program and has recently taught two high school classes on "Getting Students interested in the HVAC Industry". He's well aware that our industry needs young people to stay strong and grow. Michael has been a great advocate for ASHRAE and I wanted to recognize him for his support.

My last topic this month is the annual golf outing. This year is shaping up to be another great event and spots are filling up quickly. The deadline for reservations and final payment is April 14, 2006 so please send in your information to Peter Gerazounis as soon as possible to guarantee a spot.

I look forward to seeing everyone at the April field trip.

energy SCIENCES &
TECHNOLOGY
DEPARTMENT

DATE:	TUESDAY, APRIL 11, 2006		
TIME:	3:30 PM – 5:30 PM (No Dinner) Please Meet at Berner Hall, Meeting Room B @ 3:30pm Sharp! (PLEASE DO NOT BE LATE)	Fee:	No Fees
LOCATION:	Brookhaven National Laboratory, Upton NY – See Attached for Directions.		
About the Tour/ Presentation:	<p>Tour will be presented with a brief overview of Brookhaven's mission & then we will be off to the tour as follows:</p> <ul style="list-style-type: none"> • First Stop, Superconducting Magnet Division – Magnet Testing Cryogenic system. Brookhaven is well known for its fabrication of superconducting magnets used in particle accelerators throughout the world. This facility performs the testing of the magnets and uses helium refrigeration and nitrogen for cooling them. Lets have a look at some “cool” refrigeration. • Second Stop, National Synchrotron Light Source – A national user facility consisting of two electron storage rings: a Xray and Vacuum Ultra Violet ring which provide intense focused light spanning the electronic spectrum. The properties of this light and the special experimental stations called beamlines allow scientists in many field of research to perform experiments not otherwise possible at their facilities. It's not air conditioning but is real interesting stuff. • Third Stop, Energy Sciences & Technology Dept. – For those of you that attended last October's dinner meeting you will remember Dr. Tom Butcher and his interesting presentation on bio-fuel technology and high efficiency condensing boiler studies. We will visit with Dr. Butcher who will brief us on the latest updates and get a chance to see the test facility. Let's have a look at some “real efficient” boilers. 		

Pre-registration Required! See next page for RSVP form & directions.

Membership

I would like to take this opportunity to review a few of the reasons for being a member in ASHRAE. First, ASHRAE keeps us informed of the latest technologies and is instrumental in reporting field tests and findings. The articles published in the ASHRAE Monthly Journal are an excellent source of information. Second, standards developed by ASHRAE are key when designing or constructing a project. Third, communications with our chapter members keep you in touch with other industry professionals. You will find the answer to your questions here and your knowledge will serve to help others.

See you at our next meeting.

Peter Gerazounis, P.E.
Membership Chairman

Research Promotion

I would like to thank those who have donated to this year's Research Promotion. You have done a great job but we are far from obtaining our goals. For the past three months donations have nearly ceased. With technical, environmental and legal issues on the forefront, we as a community need to support the efforts of those researching new and existing technologies. If you have not made a contribution yet, please consider a small donation to ASHRAE Research. For those of you who wish to contribute on line, please go to www.Ashrae.org and click on the "contribute on line" link (left side of page). Please consider sending your donation and continue to support the industry that supports your profession.

Contributions can be mailed to:
