## President's Message

It was a beautiful day to be golfing on May 17<sup>th</sup>. On behalf of our entire chapter, I would like to thank the Golf Outing Committee (Craig Marshall, PE, John Nally, Alan Goerke, PE, and Frank Morgigno) for a wonderful job they did for our 5<sup>th</sup> Annual Golf Outing. A special thanks to Bob Hutter from Applied Technologies (ATI) as our sponsoring member at ATI.

During this month's meeting, Lynn Bellenger, our regional Director will be joining us to install Claudio Darras, PE as your 2004-2005 Chapter President along with the entire Board of Governors. Many challenges and experiences lie ahead for the incoming President, Claudio Darras. I trust that you will give him the same level of commitment and support you have given me.

Prior to the meeting, a CRC meeting will be held at the Westbury Manor at 3:30 pm. I encourage all to attend. In addition, please take a moment to get involved with our chapter. One hour a month is all that is required for many of the committees. Please see any Board member if you are interested in getting involved on any level.

June's dinner speaker will be discussing steam related topics. I have worked with Anthony Mendola from New York Steam. Anthony's knowledge is impressive and I am confident that those attending this meeting will learn a lot from Anthony's expertise. In addition I hope you will be able to join us along with our past presidents for Past President's Night.

## May Meeting Recap

May's diner presentation was about "Modern Boiler Room Design" offered by Mike Valentino, Vice President of Engineering for Power Flame Inc. It was an interesting review on the fundamentals, requirements and trends in boiler room design. Mike shared his extensive experience in combustion technology and of boiler/burner applications with the audience.

Our sincere thanks go to Mike for offering us that informative presentation, and to John Nally who was instrumental in coordinating last month's program.

**We hope to see you at our last meeting of the chapter year.**

## TEGA

### Cook with cold- Old Tyme Refrigerator Recipes:

#### Banana Frozen Salad

1/2 pound cream cheese  
 1 cup whipped cream  
 2 tablespoons crushed pineapple  
 1/2 cup walnut meats, cut fine  
 1/2 cup cut cherries  
 1 teaspoon salt  
 2 tablespoons mayonnaise  
 3 bananas  
 2 tablespoons lemon juice

Add lemon juice and salt to mayonnaise and stir into cheese. Add pineapple, cherries, and nuts; fold in cream and, last, the bananas cut into cubes. Turn into mold, place in refrigerator tray, and freeze about 3 hours. 6 servings.

Many of you are probably wondering why on earth there is a recipe for banana frozen salad as the TEGA article this month. Believe it or not there is a reason. This recipe is from the booklet "Cook with cold- Old Tyme Refrigerator Recipes", which is published by Ashrae.

This commemorative booklet celebrates the centennial of the founding of the American Society of Refrigerating Engineers (ASRE) in 1905. ASRE merged with the American Society of Heating and Air-Conditioning Engineers in 1959 to form ASHRAE.

Beginning in the 1920s, refrigerator manufacturers promoted the usefulness of household refrigerators by offering booklets of recipes that required refrigeration as part of the preparation. This booklet is a compilation of these recipes, presented as they originally appeared.

You will find that many of these old recipes are not as sweet and have a purer taste than the prepared foods we have grown accustomed to. These fun recipes still demonstrate the usefulness and convenience of modern refrigeration.

Have a great summer.

**Richard Gerbe**

## Student Activities

As summer is upon us please remember that Students are potential recruits for summer internships or candidates for full time positions when they graduate.

I've already received interest from local firms seeking interns for this summer. If you are seeking interns or have entry level positions available, email me at [sgiammona@jameslasala.com](mailto:sgiammona@jameslasala.com) and I will forward your information to the local schools.

In addition if you know of a college student interested in joining us, please extend the invitation for our upcoming meetings of the new chapter year. We always look forward to having them join us.

## Resource Promotion

As the chapter year has come to an end this will be my last article as Resource Promotion Chairman. I have mentioned in previous inserts that this year's donations have slowly stopped throughout the past few months. To date the committee has collected \$6,700, which only represents approximately 69% of our goal of \$9,600. I would like to once again thank everyone who has contributed this year, your donations were greatly appreciated. For those who have not donated there is still time to make a contribution. All donations are tax deductible.

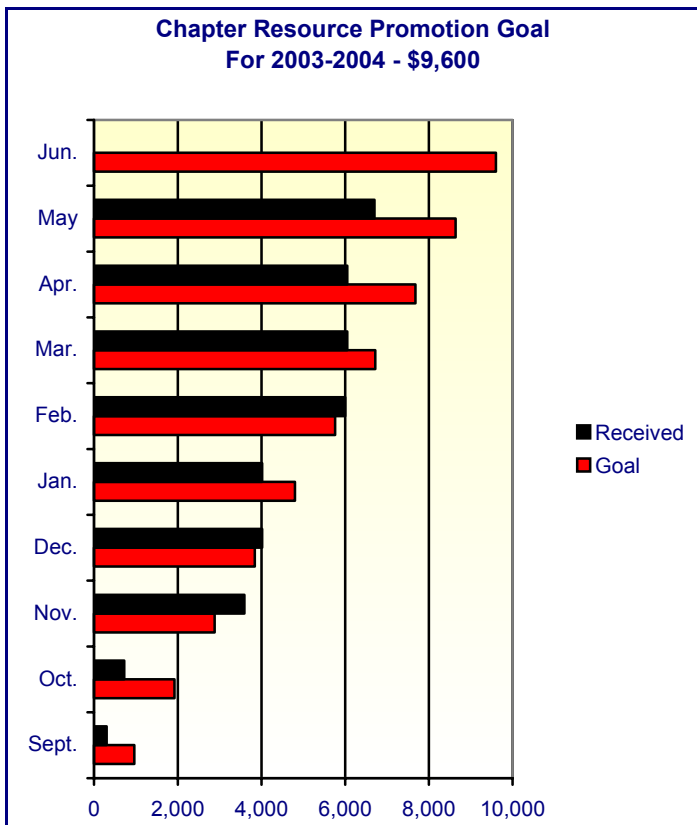

ASHRAE would like to thank last month's contributors.

- Ron Milano, Ultimate Power
- Steve Bergmann, TWINCO Supply
- Carolyn Arote, Air Distribution Enterprises

In addition, thanks to Cliff Perkins of Mason Industries for donating his 50/50 raffle earnings to ASHRAE Resource Promotion.

Thanks again to this year's contributors and remember there is still time to make your contribution. Please help seed our future.
