President's Message

Greetings! It's March and spring is almost upon us. Better get your cooling towers, chillers and other air conditioning equipment started up and commissioned because you're going to need it soon. And hopefully we don't see the weather that plagued our February meeting again this season. It goes to show that even a little snow can wreak havoc on an afternoon commute. And yes, after speaking with some of our sister chapters upstate, what we received was "a little" snow.

For those brave souls that made it through the snow to attend last month's meeting, Ron Wilkinson of AKF Engineers enlightened us with his presentation of the Design, Construction & Commissioning of LEED Projects. Commissioning is not just a buzzword to gain LEED certification but a process that should occur to ensure the success of any HVAC installation.

The session offered 1 PDH credit for attendees. Thanks again to Richard Rosner and Steve Friedman for their efforts to get February's program PDH credited. It surely provides a boost to our attendance.

Our February meeting was also our annual joint meeting with SMACNA Long Island. Thank you to Paul Parker and the other members of SMACNA who consistently support our chapter. In addition to joining us at our meeting, they were gracious to donate for distribution to all attendees SMACNA "IAQ Guidelines for Occupied Buildings under Construction" and the TABB Air Duct calculator.

I would also like to thank George Murman of Heritage Mechanical Services for donating back his winnings of the 50/50 raffle. It sets a great example and we appreciate the contribution to ASHRAE Resource Promotion and the various missions, programs and member services it supports. We are still far behind from where we want to be in total collections this year so we need everyone's support.

Our golf outing will be held on Monday, May 5 at Cherry Valley Club in Garden City. We always have a great turnout so please don't wait to make a reservation. I want to emphasize that the level of success of the event is dependent on the contributions from our sponsors. For as many foursomes as we book (and that can be as many as two per hole), I would like to see that many hole or other event sponsorship ships. When booking a foursome, please select one of the sponsorship opportunities. This is a great event and we keep the per golfer fee to a minimum so everyone has the flexibility to give what they can.

President Message (Cont'd from Page 1)

This month's meeting will be held on March 11 at the Westbury Manor and our dinner presentation will be by Mr. Nick Cotumaccio of A.D.E. Systems. The topic will be "Humidity and Humidity Control" and attendees can earn 1 PDH credit.

All our committee members are doing a great job working on their various assignments. As always, our hope is to fill the committees with as many members as possible. We are all volunteers and any help we receive is greatly appreciated. No gesture of help is too small.

Student Activities

Our job as ASHRAE members is to reach out to the students and offer them the benefits of our life experience. On that note, we are looking to develop a program by which students working through our chapter members, can obtain mentoring and internships. We need you to step forward and help. We are looking for company's that need interns, the summer and graduation ceremonies will approach fast lets see if we can keep some of our young talent local.

If you are a student reading this, we encourage you to participate in our local chapter activities. Let us show you what's going on in ASHRAE. Did you know that there are scholarships, grants, design competitions and technical publications available to you? Let us help you take advantage of these opportunities. We will be sending a request for scholarship applicants to local heads of engineering programs this month so keep a look out. If you would like to receive one directly please e-mail me and I will send it out. bsimkins@accuspecinc.com

The student activities committee could use some help with people, places and things to do. Please let us know if you have any opportunities to get some young engineers involved in ASHRAE.

Please visit: <http://www.ashrae.org/students/> for more information on all the National Student ASHRAE activities and opportunities.

ASHRAE Satellite Broadcast/Webcast

April 16, 2008
1:00–4:00 P.M. EDT

INTEGRATED BUILDING DESIGN: Bringing the Pieces Together to Unleash the Power of Teamwork

This broadcast explains what you and other members of the building team must do to advance high-performance buildings with improved design, construction and operations processes. Buildings that meet the needs of occupants and truly achieve sustainability objectives can only be created if the building community shares its knowledge and experiences. Join ASHRAE in learning more about your role in integrated building design and helping to create a sustainable built environment.

This free program is sponsored by ASHRAE's Chapter Technology Transfer Committee. For complete details, visit our website at www.ashrae.org/ibdbroadcast.

How to Participate

- You may host a broadcast site for your colleagues.
- You may register to view with others at a site near you.
- You may register to view the Webcast on your PC.

PDH Credits

Three (3) Professional Development Hours or three (3) AIA Learning Units will be awarded to viewers who complete the "Participant Reaction Form" following the broadcast.

About the Presenters

Kent Peterson, ASHRAE's 2007-2008 president, will introduce the broadcast program

- Walter Grondzik, Architectural Engineer and Professor in the Department of Architecture, Ball State University, Muncie, Indiana—"What is Integrated Building Design?"
- Charles Gullledge III, P.E., MAI, CSI, ASHRAE Distinguished Lecturer, Senior Mechanical Engineer, AC Corporation, Greensboro, North Carolina, "The Integrated Design Process"
- Drury B. Crawley, Technology Development Manager, U.S. Department of Energy, Washington, DC—"Achieving Net-Zero Energy Buildings Through Integrated Building Design?"
- Paul Torcellini, Team Leader for Commercial Buildings Research, National Renewable Energy Laboratory, Golden, Colorado—"Bringing the Pieces Together—Actual Applications"

New Member Discount

Non-member participants will be given a \$50 discount for applying for ASHRAE membership. A special membership application will be available at satellite broadcast sites or by request at membership@ashrae.org.

Registration

Online registration for satellite site coordinators and Webcast viewers will begin March 1, 2008, at www.ashrae.org/ibdbroadcast. Satellite viewer registration will begin March 15, 2008. There is no fee for registration. If you have any questions, call 678-539-1139 or email ashrae-satellitebroadcast@ashrae.org.

ADVERTISEMENTS

Reaching new heights with the next generation of VRV®

Daikin's water cooled VRV® offers an energy saving alternative to traditional centralized equipment. Its remarkable compact and lightweight structure makes installation of VRV technology in large buildings possible.

At only 330 lbs. and less than 40" high, the VRV®-WII can take a ride up the elevator to be installed in a machine room. Offering state of the art comfort for hotels, offices and large commercial applications, the engineer solution toolbox just got bigger.
